Dear Sir,

G.G. Sales Co. is a Company started in early 1997 under Shri Vinay Garg. He had experience of erection, commissioning and maintenance of spinning units, having worked at Modern denims Ltd. and subsequently as Service Engineer with Schlafhorst. It was felt that in the field of spinning itself there is lot of scope to improve the productivity and to give benefit of our expertise to all Spinning Mills thus consulting company was started.

G.G.Sales believes in

Developing state of art technology in our field and putting it in use for the benefit of the industry.

Our strength lies in sustained continuous efforts.

We take pride to say that in few years time we have developed ourselves to a point where we can say that we have total solution to all problems faced on Autoconers by the Spinning Units. We have even diversified our activities to other machines as well.

Current Activities

SPARES

Manufacturing/ Marketing of **COMPLETE** range of both Mechanical and Electronic QUALITY Spares of all models of **Schlafhorst Autoconers (238, 338 AND AC-5)**.

Manufacturing/ Marketing of **COMPLETE** range of Mechanical and Electronic spares of all models of **Murata Autoconers(7-2, 7-5 AND 21-C)**.

Manufacturing/ Marketing of **COMPLETE** range of Mechanical and Electronic spares of all models of **Savio Autoconers (ESPERO, ORION AND POLAR)**.

HAVE WRITTEN AND PUBLISHED A BOOK "HELPBOOK FOR AUTOCONER-238"

VARIOUS DEVELOPMENTS OF OUR COMPANY

1. **Modified Cyclic Motor Shaft of Autoconer 238** (147 model) which permanently solves the problem of continuous breakages of this shaft.
2. Modified Indicator Unit: With our Indicator unit, the yellow light at the time of full doff glows very brightly thereby helping the operator to see the yellow light from distant and

helping in increasing the efficiency of the machine. Also we are using Japanese imported switch inside it.

3. Pilot Motor Gear Box Cover Of Autoconer 338 as per the latest design.
4. Operation section of Autoconer 338.
5. All Sensor/Initiators used on autoconers along with our own developed switch housing PCB and DC-DC converters.
6. All types of membrane keypads used in spinning industry.
7. Operator Panel OP-07 Keyboard with Caseing (Box) of LR-6 Ring Frames.
8. Operator Panel OP-077 Keyboard with Caseing (Box) of LR-6 Ring Frames.
9. Operator Panel OP-03 Keyboard with Caseing (Box) of KTTM Ring Frames.
10. Operator Panel TD-200 Keyboard with Caseing (Box) of KTTM Ring Frames.
11. Pricol Counter Meter Texcom 2001 Front Plate with Keypad.

PCB Repairs

- Repairing Of Motherboards/ WR Pcb's/MST/ FU of Autoconer 338/AC-5, X5.
- Repairing of all Stepper pcb's of Autoconer AC-5, X-5.
- Repairing of Yarn Tension Sensors of Autoconer 338/ AC5/ X5.
- Rewinding of Motor Housing of Autoconer 338/ AC5.
- Repairing of Drum shafts of Autoconer 338/ AC5.
- Repairing of Pilot motor of Autoconer 338/ AC5.
- Repairing of all Step Motors of Autoconer 338/ AC5.
- Repairing of valves (Opening Splicing Valve-Rexroth) of Autoconer AC-5/ 338/ 238 with guarantee of its working of one year.
- Repairing of all Pcb's of Autoconer 238.
- Repairing of Pcb's of Siemens display OP-07, OP-077 of LR6 Ringframes and OP-03 of KTTM Ringframes.
- Repairing of Pricol Counter Meters.
- Repairing of all PLC's / Frequency Drives (inverters) of any makes.

CLIENTELE: We are having a clientele of more than 300 companies spread over North, Central and West India. We are also into exports since the year 2000 exporting to countries like Indonesia, Philippines, Nepal, Bangladesh and Kenya.

We hope that you will give us a chance to serve you.

(VINAY GARG)
